

## press release

**File name: Raut –FC33-0704.doc**  
**Ref: FC33 (07/04)**  
**Draft 2 : amended by MN 19-7-04**

**Title: EGYPTIAN METALWORKS, CAIRO, INSTALL TWO RAUTOMEAD**  
**CONTINUOUS CASTING MACHINES.**

Release Date:

Continuous casting technology specialists, Rautomead International Ltd., of Dundee, Scotland, have secured a contract for the supply of a second continuous casting machine to Egyptian Metalworks, producers of copper and copper alloy bars, wires and sections.

This latest, larger capacity model, a Rautomead RT 650 horizontal continuous caster, will be commissioned during the third quarter of this year and will join one of Rautomead's RMT 100 machines that was commissioned at Egyptian Metalworks in April 2004.

The Rautomead machines, fed with liquid metal from primary melting equipment, will be used for the production of high quality copper alloy shapes and bars.

Rautomead Chairman, Sir Michael Nairn, said "We are delighted to be in the process of supplying and commissioning a second machine in Egypt. "

Rautomead International Ltd. specialises exclusively in the design and supply of continuous casting technology for processing copper, copper alloys and precious metals. Established in 1978, the company has supplied over 265 continuous casting lines to customers around the world.
