

castube™

- Continuous casting technology for thin wall copper tube shell
- 5,000 – 10,000 tonnes per year
- Direct drawing to plumbing tubing
- Direct drawing to ACR tubes

as-cast copper tube shell

Plumbing Tube

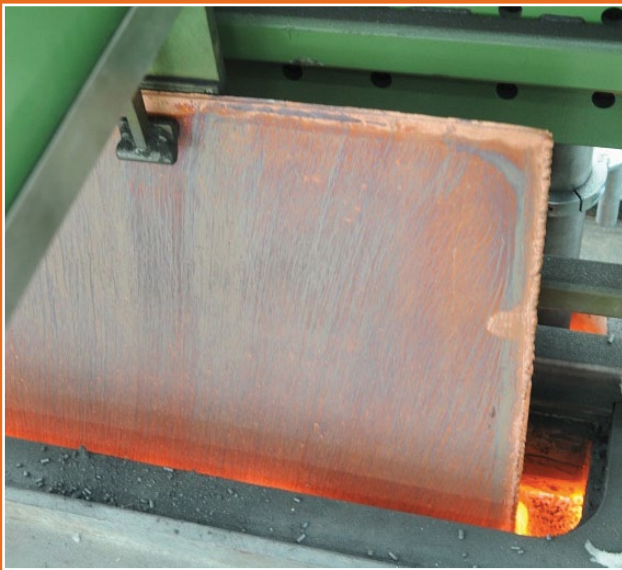

Coil of ACR Tube

RST Continuous Casting Machine

RST Continuous Casting Machine

- Graphite furnace technology
- Automated cathode feed and alloying
- Tube shell coil weight up to 1,000 kg
- Compact space: 40m x 8m x 8m high
- Floor mounted, no special foundations

Automated Cathode Feeding

Automatic Grain Feeding
